The consultants listed above have approached Natural England - Dorset Team and/or the Natural Environment Team, Dorset County Council as being able to carry out ecological surveys. This list is for information and guidance only and does not constitute an endorsement of individuals or companies by Natural England or members of the Dorset Biodiversity Officers Group. N.B. It remains the responsibility of developers employing consultants to ensure that they are competent in the required area of operation and fully understand the requirements of the work for which they have been engaged.

Licensed consultants all have licence numbers for the particular licence they hold, i.e. for different protected species, e.g. bat, badger, white-clawed crayfish, barn owl, etc. It may be pertinent to ask for the licence number when employing a consultant and/or two references.

This list is updated by the Natural Environment Team, Dorset County Council on behalf of Dorset Biodiversity Officers Group.
