

**Bournemouth, Dorset and Poole Minerals Core Strategy  
November 2007  
Issues and Options Questionnaire**

For office Use only:  
Ref:  
Acknowledged:

Please use this form to make comments on the Minerals Core Strategy Issues and Options Report. The form should be read alongside the full report. **It is not necessary to answer all the questions if you only have an interest in a particular mineral type or topic.** Please be aware that all responses will be made available for public inspection.

If you require further copies of this form it is available for downloading at [www.dorsetforyou.com/mwdf](http://www.dorsetforyou.com/mwdf) or from the Minerals and Waste Planning Policy Team. Alternatively answers to the consultation questions can be filled in through our on-line form.

Your completed questionnaire should be sent to the following address by **3.00pm on 18 January 2008**

**Minerals and Waste Planning Policy  
Environmental Services  
Dorset County Council  
Colliton Park  
Dorchester  
Dorset DT1 1XJ**

For further information, or advice, on filling in this questionnaire please contact us on 01305 228585/224252 or Fax 01305 224835

**Chapter 1 – Introduction**

(there are no consultation questions within this chapter, however you can use this box to make comments on the text)

## Chapter 2 – Vision and Objectives

Do you consider the vision to be appropriate? (explain)

Are the objectives appropriate? (explain)

If not, what changes do you suggest? (explain)

## Chapter 3 – Time Period (TP)

TP 1	(tick and briefly explain why)
Option 1 2020	
Option 2 2026	
Option 3 2030	
Option 4 Alternative date	

<b>Chapter 4 - Ball Clay (BC)</b>	
<b>Further Extraction</b>	(tick and briefly explain)
Option 1 (Make provision)	
Option 2 (Not make provision)	
Other	
Don't Know	
<b>BC 2 – Ball Clay Consultation Area</b>	(tick and briefly explain)
Option 1 (Remain as it is)	
Option 2 (Revise through MCS)	
Option 3 (Revise but not through MCS)	
Other (State)	
Don't Know	
<b>BC 3 – Extraction in the Dorset AONB</b>	(tick and briefly explain)
Option 1 (Allow extraction within AONB)	
Option 2 (Do not identify further reserves within AONB)	
Other (State)	
Don't Know	
<b>BC 4 – Ball Clay Transportation</b> (Lorry transport only appropriate method of moving Ball Clay to Furzebrook)	(tick and briefly explain)
Yes	
No	
Other (State)	
Don't Know	
<b>BC 5 – Ball Clay Transportation</b> (Move Ball Clay to Poole or Southampton by rail)	(tick and briefly explain)
Yes	
No	
Other (State)	
Don't Know	
<b>BC 6 – Secondary Materials</b>	(tick and briefly explain)
Option 1 (Extract sand and gravel wherever possible)	
Option 2 (Limited extraction of sand and gravel)	
Option 3 (No sand and gravel extraction)	
Other (State)	
Don't Know	
<b>Are there any other issues associated with Ball Clay extraction? (explain)</b>	

<b>Chapter 5 - Aggregates (AS)</b>	
<b>AS1 – Provision of aggregates</b>	(tick and briefly explain)
Option 1 (Meet the guidelines)	
Option 2 (Partially meet guidelines avoiding impacts)	
Other (State)	
Don't Know	
<b>AS 2 – Alternative sources of aggregates</b>	(tick and briefly explain)
Option 1 (Importation by road)	
Option 2 (Importation by rail)	
Option 3 (Marine sand and gravel)	
Option 4 (Secondary and recycled)	
Other (State)	
Don't Know	
<b>AS 3 – Approach to allocating sites</b>	(tick and briefly explain)
Option 1 (Preferred areas)	
Option 2 (Areas of search)	
Option 3 (Criteria based approach)	
Option 4 (A combination of options) (State)	
Other (State)	
Don't Know	
<b>AS 4 – Distribution of aggregate resources</b>	(tick and briefly explain)
Option 1 (River, valley gravels)	
Option 2 (Plateau gravels)	
Option 3 (A combination of river and plateau gravels)	
Other (State)	
Don't Know	
<b>AS 5 – Approach to site selection</b>	(tick and briefly explain)
Option 1 (Extensions to existing quarries)	
Option 2 (New sites)	
Other (State)	
Don't Know	

<b>AS 6 – Aggregates recycling</b>	(tick and briefly explain)
Option 1 (Make provision for aggregates recycling facilities)	
Option 2 (Make no provision for aggregates recycling facilities)	
Other (State)	
Don't Know	
<b>AS 7 – Aggregates recycling</b>	(tick and briefly explain)
Option 1 (Quarries)	
Option 2 (Industrial estates)	
Other (State)	
Don't Know	
<b>Are there any other issues associated with aggregates extraction? (explain)</b>	

<b>Chapter 6 – Purbeck Stone (PK)</b>	
<b>PK 1 – Further extraction</b>	(tick and briefly explain)
Option 1 (Support provision of additional reserves)	
Option 2 (Not support provision of additional reserves)	
Other (State)	
Don't Know	
<b>PK 2 – Traditional stone working</b>	(tick and briefly explain)
Option 1 (Revert to traditional extraction)	
Option 2 (Expansion of existing sites)	
Option 3 (Concentration of sites)	
Other (State)	
Don't Know	
<b>PK 3 – Foreign imports</b>	(tick and briefly explain)
Option 1 (Encourage importation)	
Option 2 (Discourage importation)	
Option 3 (Provide no policy guidance)	
Other (State)	
Don't Know	
<b>PK 4 – Uses of Purbeck Stone</b>	(tick and briefly explain)
Option 1 (Traditional purposes)	
Option 2 (Wide range of uses)	
Other (State)	
Don't Know	
<b>PK 5 – Uses of Purbeck Stone</b>	
Option 1 (Retain all waste stone on site)	
Option 2 (Retain some waste stone)	
Other (State)	
Don't Know	
<b>PK 6 – Visual Impact of Quarrying</b>	(tick and briefly explain)
Option 1 (A significant issue)	
Option 2 (Not a significant issue)	
Other (State)	
Don't Know	

<b>PK 7 - Visual Impact of Quarrying</b>	(tick and briefly explain)
Option 1 (Encourage screening)	
Option 2 (Discourage screening)	
Other (State)	
Don't Know	
<b>PK 8 – Purbeck Stone Processing</b>	(tick and briefly explain)
Option 1 (Processing on site)	
Option 2 (Central service areas)	
Option 3 (Combination)	
Other (State)	
Don't Know	
<b>Are there any other issues associated with Purbeck Stone extraction? (explain)</b>	

<b>Chapter 7 – Portland Stone (PD)</b>	
<b>PD 1 – Further extraction</b>	(tick and briefly explain)
Option 1 (Current permitted reserves)	
Option 2 (Underground mining)	
Other (State)	
Don't Know	
<b>PD 2 – Crushing of Portland Stone</b>	(tick and briefly explain)
Option 1 (Not appropriate)	
Option 2 (Appropriate excluding the cherty series)	
Option 3 (Appropriate including the cherty series)	
Other (State)	
Don't Know	
<b>PD 3 – Traffic through Fortuneswell</b>	(tick and briefly explain)
Option 1 (Lorry route via incline/through Portland Port)	
Option 2 (Use present route)	
Other (State)	
Don't Know	
<b>PD 4 – Traffic through Easton</b>	(tick and briefly explain)
Option 1 (New lorry route through Broadcroft Quarry)	
Option 2 (Highway restrictions)	
Option 3 (Use present route)	
Other (State)	
Don't Know	
<b>PD 5 – Visual impacts of Quarrying</b>	(tick and briefly explain)
Option 1 (Yes its an impact)	
Option 2 (No its not an impact)	
Other (State)	
Don't Know	
<b>Are there any other issues associated with Portland Stone extraction? (explain)</b>	

<b>Chapter 8 - Hydrocarbons</b>	
<b>HY 1 – Further exploration</b>	(tick and briefly explain)
Option 1 (Encourage exploration/production)	
Option 2 (Resist exploration/production)	
Other (State)	
Don't Know	
<b>HY 2 – Environmental impacts</b>	(tick and briefly explain)
Option 1 (Significant environmental impacts)	
Option 2 (No Significant environmental impacts)	
Other (State)	
Don't Know	
<b>HY 3 – Transportation of Hydrocarbons</b>	(tick and briefly explain)
Option 1 (Promote alternative methods)	
Option 2 (current methods acceptable)	
Other (State)	
Don't Know	
<b>Are there any other issues associated with hydrocarbons? (explain)</b>	

<b>Chapter 9 – Other Minerals (OM)</b>	
<b>OM 1 – “Common” clay</b>	(tick and briefly explain)
Option 1 (Make provision for further reserves)	
Option 2 (Make no provision for further reserves)	
Other (State)	
Don't Know	
<b>OM 2 – Chalk</b>	(tick and briefly explain)
Option 1 (Make provision for reserves)	
Option 2 (Make no provision for reserves)	
Other (State)	
Don't Know	
<b>OM 3 – Other Building Stone</b>	(tick and briefly explain)
Option 1 (Make provision for further reserves)	
Option 2 (Make no provision for further reserves)	
Other (State)	
Don't Know	
<b>Are there any other issues associated with “common” clay? (explain)</b>	
<b>Are there any other issues associated with chalk? (explain)</b>	
<b>Are there any other issues associated with other building stone? (explain)</b>	

<b>Chapter 10 - Safeguarding</b>	
<b>MS 1 – Which minerals to safeguard?</b>	(tick and briefly explain)
Option 1 (All minerals)	
Option 2 (All minerals except chalk and common clay)	
Option 3 (Only ball clay)	
Other (State)	
Don't Know	
<b>MS 2 – Rail depots and Marine wharves</b>	(tick and briefly explain)
Option 1 (Yes safeguard)	
Option 2 (No should not safeguard)	
Other (State)	
Don't Know	
<b>MS 3 – Revision of existing MCA's</b>	(tick and briefly explain)
Option 1 (Yes revise)	
Option 2 (No don't revise)	
Other (State)	
Don't Know	
<b>MS 4 – Revision of existing MCA's</b>	(tick and briefly explain)
Option 1 (All areas)	
Option 2 (Portland)	
Option 3 (Warmwell and Crossways)	
Option 4 (NW of Wareham and S Wareham to Poole Bay)	
Option 5 (West of Worth Matravers)	
Option 6 (Northwest of Poole)	
Other (State)	
Don't Know	
<b>MS 5 – MPA boundaries</b>	(tick and briefly explain)
Option 1 (MSA's should cross boundaries)	
Option 2 (MSA's should be restricted to the Plan Area)	
Other (State)	
Don't Know	

<b>MS 6 – Planning/environmental designations</b>	<b>(tick and briefly explain)</b>
Option 1 (Define MSA's irrespective of other designations)	
Option 2 (do not cover land subject to designations)	
Other (State)	
Don't Know	
<b>Are there any other issues associated with minerals safeguarding? (explain)</b>	

<b>Chapter 11 - Restoration</b>		
<b>RN 1 – Approach to Restoration</b>		(tick and briefly explain)
Option 1 (General county wide strategy)		
Option 2 (Specific mineral/area strategy)		
Option 3 (Individual site specific scheme)		
Other (State)		
Don't Know		
<b>RN 2 – Restoration levels</b>		(tick and briefly explain)
Option 1 (Near original levels, using imported stone)		
Option 2 (Lower level restoration without imported fill)		
Other (State)		
Don't Know		
<b>RN 3 – Previous land uses</b>		(tick and briefly explain)
Option 1 (Restoration to original land use)		
Option 2 (Restoration to most appropriate land use)		
Other (State)		
Don't Know		
<b>RN 4 - Afteruses</b>		
Area	Mineral Type	Suggested Afteruse
1.		
2.		
3.		
4.		
<b>Are there any other issues associated with minerals restoration? (explain)</b>		

## Chapter 12 – Development Control Policies

### Which of these topics requires policy guidance?

	Topic	Requires policy guidance (tick)	Reason (briefly explain)
1	Mineral extraction in the AONB		
2	Mineral extraction in areas of national designations		
3	Mineral extraction in areas of local designations		
4	Mineral extraction in the green belt		
5	Protecting local amenity from mineral developments		
6	Protecting public rights of way		
7	Mineral extraction & biodiversity/geodiversity		
8	Mineral extraction and airport safety		
9	Mineral extraction on or near the Heritage Coast and World Heritage Sites		
10	Mineral extraction in areas of known archaeology		
11	Mineral extraction near or within Historic Parks, Gardens and Conservation Areas		
12	Mineral development on or near ancient monuments		
13	Mineral extraction in areas of important landscape character		
14	Proposals affecting best and most versatile agricultural land		
15	Protection of water resources		
16	Agricultural irrigation lakes/water storage/reservoirs		
17	Seeking bonds or financial guarantees		
18	Ancillary development		
19	Borrow pits		

### Have we missed anything?
